

SuperTag Manual Handheld Detacher

The Sensormatic SuperTag Manual Handheld Detacher is ergonomically designed to comfortably and easily remove SuperTags at the point-of-sale. At only 0.36kg (12.77oz), this detacher provides a lightweight and portable detacher solution. It features a symmetrical handle/trigger design that accommodates both left- and right-handed users and includes a top-mounted tag “nest” that allows easy operation with either hand. Associates simply insert any SuperTag into the nest beneath the thumbnail tab, press the tag down flush in the nest, then squeeze the trigger to release the tack.

The tough, molded construction makes it rugged and user-friendly — without sacrificing durability. For added security, this detacher has an internal EAS element to alarm detection systems if an attempt is made to remove it from the retail environment.

Retailer Values

- // Ambidextrous design allows for quick and easy operation with either hand
- // Rugged construction helps ensure reliable operation in spite of everyday drops and bumps
- // No electric power or batteries needed for operation in any environment
- // Integrated lanyard helps prevent unauthorized use and prevents removal from the store
